FOR White Goods, Ruffling, Edgings and Trimmings, go to ROW & WOODS'.

HOME FROM HARVEST.

You're home to my side at the evening tide,
Or even the twilight grey,
And I bless the time of the curfew chime,
And the close of another day.

And, husband, see, for a place on your knee
Here's a bairn that's like to greet;
They've played in the corn from the earliest morn,
And gleaned 'mid the sheaves of wheat.

With the poppies red they have bound the head,
And our Janie was like a queen;
A fairer face of the lordliest race
In the country was never seen.

And it's home once more with the day's work o'er,
In the evening calm and still,
With a smile as bright as your face to-night,
As the sunset over the hill.

And happy the eyes when you've bound the sheaves
And come from your toil set free,
With a blithsome look to the ingle-nook,
Safe home to the bairns and me.

ALWAYS BEAUTIFUL.

At a festival party of old and young, the question was asked, which season of life is the most happy? After being freely discussed by the guests, it was referred for answer to the host, upon whom was the burden of four score years. He asked if they had noticed a grove of trees before the dwelling, and said:—When the spring comes, and in the soft air the buds are breaking on the trees and they are covered with blossoms, I think, how beautiful is spring! And when the summer comes, and covers the trees with its foliage, and singing birds are all among the branches, I think, how beautiful is summer! When autumn loads them with golden fruit, and their leaves bear the gorgeous tint of frost, I think, how beautiful is autumn! And when it is sere winter, and there is neither foliage nor fruit, I look up, and through the leafless branches as I never could until now, I see the stars shine through.

A VENERABLE CHURCH.

St. Peter's Church, in New Kent county, Virginia, is one of those which were built in the old Colonial times. Within its massive and honored walls many of the cavaliers of long ago were wont to worship, as were many of the worthies of the Revolution. At its altar George Washington was married to Martha Custis, and its aisles have frequently echoed his footsteps. A sad change has, however, come over it. The walls and roof still stand, and are as strong as when they were first raised. But desecration has done its melancholy work within. Nothing remains of the seats on which sat so many generations, or of the altar at which they knelt, and horses have been stabled in its chancel. The surviving vesterymen of the church, desiring to repair it, and being unable to obtain the means of doing so among their own impoverished people, have authorized an appeal to the citizens of their State.

UNPLEASANT IF TRUE.—In Philadelphia, one pleasant Sunday evening, an old lady whose failing eyes demanded an unusually large prayer book, started for church a little early. Stopping on the way to call on a friend, she laid her prayer book on the centre-table. When the bells began to chime she snatched what she supposed to be her prayer book, and started for church. Her seat was at the chancel end of the gallery.—The organ ceased playing. The minister said: "The Lord is in his holy temple, let all the earth keep silence before him." In the effort to open her supposed prayer book, she started the spring of the music box, which she had taken instead. It began to play—in her consternation she put it on the floor. It would not stop—she put it on the seat—it sounded louder than ever. Finally she carried it out while it played the "Washing Day," an Irish jig tune.

AWAKENING INFLUENCE OF RATTLE SNAKES.—A family, consisting of the father and three sons, lived in one of our South-western States, and led a very worldly life. A good and perhaps energetic minister, labored hard and long for their conversion, but apparently in vain. They all seemed quite obdurate and unimpressed with his appeals and warnings. In this state of affairs he was greatly surprised on receiving a call to go to the house and offer prayers for the son Jim, who had been bitten by a rattle snake, and who expected a fatal result. The good man attended and spake in this wise:

"We thank Thee for all thy manifold blessings. We thank Thee for those thou sendest against our wishes. We thank Thee for rattlesnakes. We thank Thee that a rattle snake has bit Jim. We pray Thee send another rattle snake to bite Sam. We pray Thee send another to bite Jake. And, O, we pray Thee to send the biggest kind of a rattle snake to bite the old man, for we verily believe that nothing short of rattle snakes will ever do this family any good."

WHY DIDN'T HE?—One of the selectmen of Canton, Missouri, tells in confidence that he entered Nichol's grocery the other night and found some one reading an account, in a St. Louis paper, of a man who had arranged himself in a coffin, dressed as he wished to be buried, and taken Prussic aid. Next morning of course he was found dead. Mike Dooley, a character, remarked, as the reading was finished, "Why didn't the fool nail up the coffin? Then he'd made a good job of it!"

AT Cork, Ireland, a gentleman had often taken his little son to see the play. Thinking the boy was getting old enough to attend the service at church, he took him there one Sunday. Patiently the child sat for a time; but, fancying that it was time the amusements began, he commenced clapping his hands, and horrified his father by shouting with all his might at the top of his tiny shrill voice, "Up wid de rag!" (the usual cry in the Cork theatres when an audience consider it time for the curtain to rise.)

AN old picture represents a king sitting in state, with a label, "I govern all"—a bishop with a legend, "I pray for all"—a soldier with a motto, "I fight for all',—and a farmer, drawing forth reluctantly a purse, with the inscription, "I pay for all." There is more truth than poetry in the idea.

ISN'T it very affecting to behold at a wedding the sorrow-stricken air of a parent as he "gives the bride away," when you know that for the last ten years he has been trying to get her off his hands.

SOME wretch of an editor says that another twist to the present mode of "doing up" the ladies' hair would take them off their feet.

A DARKEY JURY.

A friend of ours vouches for the truth of the following:—

At a recent session of one of the courts, in South Carolina, an entire colored Jury was empanelled. A case was brought before them—the witnesses examined, and the attorneys made their respective arguments. The Judge, after laying down the law, and recapitulating the testimony, gave the papers into the hands of the Foreman—an intelligent looking darkey—with instructions that, as soon as they found a verdict, to bring it in without delay.

Thirty minutes or more elasped, when the Jury returned, headed by the Foreman, and stood before the Judge.

As the Foreman appeared to hesitate, and to wear a disappointed look, the Judge asked—

"Mr. Foreman, have you found a verdict?"

"No, Massa Judge, we haben't found 'em," replied the ebony juryman.

"It's a very plain case," said the Judge.

"Can't help it, massa, couldn't see it."

"On what grounds?"

"We didn't look into de grounds, Massa Judge," replied the Foreman; "de ossifer didn't take us out into de grounds, but he took us into a room, and locked us in, and tole us when we found de verdict, he wud leff us out. So we began to find de verdick, and we sarched every nook, corner, creblce, and ebery ting dar was in dat room, but we foun no verdick—no, massa Judge, dar was no verdick—noffin ob de kind dar."

As an original expression of heavy grief we doubt if anything more touching has been read than the following, of a crushed heart in Star City, Nevada. Mrs. ——, of that place, an eccentric old lady, recently rushed into the room of a relative, and without waiting for the usual salutations, said:

"Well, John's dead!" (Her husband.)

"Dead! Is it possible?"

"Yes; dead! Died last night! Want you all to come to the funeral. The Masons and Odd Fellows are going to turn out, and we shall have a beautiful time."

Deaths being of rare occurrence in the settlement, of course everybody went to the funeral. Next day somebody remarked to the old lady that there was a large turn out.

"Yes, indeed there was," she replied, "but I didn't enjoy myself as well as I have at some funerals, the horses cut up so."

ASTONISHED RED MEN.—A band of Indians made a sudden attack on a detachment of our soldiers in the mountains. The soldiers had a mountain howitzer mounted on a mule. Not having time to take it off and put in position, they backed up the mule and let drive at the Indians. The load was so heavy that mule and all went tumbling down the hill toward the savages, who, not understanding that kind of warfare, fled like deers. Afterward one of them was captured, and when asked why he ran so, replied. "Me big Injin, not afraid of little guns nor big guns, but when white man load up and fire a whole jackass at Injin, me don't know what to do."—*Nashville Press.*

THE RACE BETWEEN INDIANS AND HORSES.—This novel race came off at the Driving Park, on Saturday afternoon last, for a purse of $100, the horses to run six miles and the Indians three. The horses were the trotter "Lady Patchin," pacer "Maria Brough," and runner "Lady Moody," and their competitors, Steep Rock, Deerfoot and Stevens. The race commenced at half past 3 o'clock. It was arranged that the men were to change each quarter mile, and the horses each mile. "Lady Patchin" trotted to sulky, and the others went under the saddle. "Patchin" and Stevens led off, the former being relieved, at the end of the first mile, by "Maria Brough," who was followed by "Lady Moody," the last three miles being run in the same order. At the quarter pole, half way around the track, Stevens was relieved by Steep Rock, and he again at the starting point by Deerfoot, and thus in rotation till the three miles were made, each man being required to run one mile in quarter mile dashes. The race was won by the Indians, Deerfoot coming in on the home stretch nearly a quarter of a mile in advance of "Lady Moody," who ran the last mile.—*Cleveland Plaindealer.*

WHAT WILL BECOME OF THE BUFFALOES.—Among other strange changes on the Western plains made by the Pacific railroad, will be its effect on the great buffalo migrations North and South during the Summer and autumn months. The immense buffalo trails that sweep from the State of Mexico to the British dominions, and over which countless herds move northward, as the grass begins to grow, and southward as it begins to fade will be entirely broken up by the railroad and the trains of cars that will constantly be in motion over it. The Buffalo, which, like the Indian has been forever retreating before the advance of the white man, will thus have his last great stamping-ground destroyed, and as there is no further retreat possible for him, he will have to prepare, for his final disappearance from the soil of the U. States.

AT a Sabbath school, not many miles distant, only a few weeks ago, a reverend gentleman, after exhorting the school piously and affectionately for a half hour, by way of giving the pupils a chance to contribute their mite to the general glory of the occasion, requested them to sing *Jordan* for him, expecting, of course, to hear, *On Jordan's stormy banks I stand*, &c., when, to his surprise, the scholars, with one accord, struck up, *Jordan am a hard road to travel!*

A NEW YORK police officer, seeing a nigger whom he knew, exclaimed: "Sambo, you are an honest, faithful fellow; I will give you a drink." "Wid all dis heart," said Sambo, "wid all dis heart. Some niggers are haughty and proud, and won't stop to drink wid a police officer; but dat's wrong. I tink a police officer is most, if not every way, as good as a nigger, 'specially when de nigger is dry."

"WHAT a fine head your boy has!" said an admiring friend.

"Yes," said the fond father, "he's a chip of the old block; ain't you, sonny?"

"I guess so, daddy, cause teacher said I was a young blockhead."

A WOUNDED reputation is seldom cured.

BRADDOCK'S GRAVE.

The place where Braddock was buried is in Fayette county, Pennsylvania, and between fifty-three and fifty-four miles from Cumberland, Maryland, a few rods North of the National road. There had long existed a tradition in this region that Braddock was killed by one of his own men, and more recent developments leave little or no doubt of the fact. A communication some time since appeared in a Washington paper, written by a gentleman whose authority is good on such points, which says: "When my father was removing with his family to the West, one of the Fausetts kept a public house, near where Uniontown now stands, the county seat of Fayette, co. In this man's house we lodged about the 10th of October, 1781, twenty-six years and a few months after Braddock's defeat, and there it was made anything but a secret that one of the family dealt the death blow to the British general.

"Thirteen years afterwards I met Thomas Fausett in Fayette county, then, as he told me, in his 70th year. To him I put the plain question, and received the plain reply: *"I did shoot him!"* He then went on to insist that by doing so, he contributed to save what was left of the army. In brief, in my youth I never heard the fact either doubted or blamed, that Fausett shot Braddock."

Hon. Andrew Stewart, of Uniontown, Pa., says his father knew and often conversed with Tom Fausett, who did not hesitate to avow, in the presence of his friends, that he shot General Braddock. Fausett was a man of gigantic frame, of uncivilized, half savage propensities, who spent most of his life among the mountains as a hermit, living on game which he killed. He would occasionally come into town and get drunk; sometimes he would repel inquiries into the affair of Braddock's death, by putting his fingers to his lips, and uttering a sort of buzzing sound; at other times he would burst into tears, and appear greatly agitated by conflicting passions.

In spite of Braddock's silly order that the troops should not protect themselves behind the trees, Joseph Fausett had taken such position, when Braddock rode up in a passion, and struck him down with his sword. Tom Fausett, who was but a short distance from his brother, saw the whole transaction, and immediately drew up his rifle and shot Braddock through the lungs partly in revenge for the outrage upon his brother, and partly, as he always alleged, to get the General out of the way, and thus save the remainder of the gallant band who had been sacrificed to his obstinacy and want of experience in frontier warfare.

After Braddock fell, the retreating soldiers carried their wounded General for four days, until they reached "seven miles beyond Dunbar's camp, where he expired." He was buried in the centre of the road which his advancing army had cut; and to prevent the discovery of the grave, and to save the body from savage dishonor, soldiers, horses and wagons were passed over it. Some of the soldiers so marked the trees near the spot that those who visited there many years after, could mark out the spot with certainty.

Some twenty-nine years since, while a party of laborers were repairing this road and digging away the slope of the hill, they disinterred some bones, with sundry military trappings, which were at once known by the old settlers to be those of Braddock. One and another took some of the most prominent bones, and the others were reinterred under a tree on the hill. Mr. Stewart afterwards collected the scattered bones from the individuals who had taken them, and sent them to Peale's Museum in Philadelphia.

A plain shingle marked "Braddock's Grave," nailed to the tree where a part of the bones were interred, is the only monument to point out to the traveler the resting place of the proud and brave but unfortunate hero of the French war.

Suffocated in a Well—Three Persons Killed by Foul Air—A Mournful Scene.

[From the Chicago Tribune, 21 inst.]

A frightful disaster, resulting in the death of three persons, occurred at Downer's Grove, Dupage county, about eighteen miles west of this city, on the Burlington and Quincy Railway, on Friday morning. The following particulars were gathered from the scene of the disaster:

"A pump-well, situated on the farm of a man named Wheeler, located within a mile of Downer's Grove Station, being somewhat out of order, the son of Mr. Wheeler volunteered to descend into the depths for the purpose of righting matters. He was let down, but had only reached the depth of about fifty feet, when he let go the rope and dropped to the bottom.

"To save the life of his son, the father descended to aid him, but on reaching the same point he also fell to the bottom. A number of persons, who had meanwhile collected about the opening, now proposed to let down grappling-irons, but a young man named Carey Freeman, son of Rev. A. D. Freeman, begged that he first be allowed to descend and give what assistance he might be able to render. He was allowed to follow his inclinations, and met with a similar fate. Like his predecessors, the foul air strangled him the moment he came within the deadly atmosphere. It was not until the afternoon that the inanimate bodies were recovered by means of grappling-irons.

ON the Pacific Railway, in Kansas, on Monday, between Ellsworth and Hays, an exciting encounter took place between a herd of buffaloes and a passenger train. For three miles the buffaloes pushed along parallel with the train. Many shots were fired, but nothing stopped the tide of the stampeded beasts. Finally they swept across the track, ahead of the locomotive, fairly worsting the iron horse by bringing him to a halt.

GRANT IN A QUANDARY.—General Grant and the Radical party are both in a bad situation; neither understands what the other is going to do. Since the late elections, the General is not half so radical as he was, and if he makes up his mind that the Radical candidate for the Presidency is going to be defeated in 1868, he will not allow himself to be the man.

FRIDAY AFTERNOON, NOV. 15, 1867.

THE NOVEMBER ELECTIONS.

On Tuesday, the 5th instant, elections were held in Massachusetts, New York, New Jersey, Maryland, Illinois, Wisconsin, Minnesota and Kansas, for State or local officers. The results are most cheering to the Democratic and conservative masses. In New York and New Jersey we have achieved overwhelming victories—in the former carrying the State ticket by about 45,000 majority, with the lower House of the Legislature, and in the latter we have both branches of the Assembly and a majority of about 13,000 on the popular vote. Maryland has elected Democrats for everything everywhere. In all the other States our gains are large, reaching 40,000 in Massachusetts alone. In Kansas, Wisconsin and Minnesota the question of negro suffrage was submitted to the people, and was voted down. In these three States the Radical majorities are reduced to small figures. Our whole gains in November, on the popular vote, cannot be short of one hundred thousand.

This great triumph must cheer every patriotic heart. It is a solemn warning to the revolutionizing faction that rules Congress that they must stop in their mad career; that the voice of the country is opposed to their plan of reconstruction; is opposed to impeachment; is opposed to negro suffrage; is opposed to military rule; and in fact to the whole plan of Congress. We think the elections settle these questions beyond a doubt and for all time to come! The people, through the ballot box, have demanded in a voice of thunder that the legitimate purpose of the war on the part of the Federal government shall be carried out and the Union restored. This verdict of the white freemen of the North has thrown down the great ebony idol from his pedestal, and stripped his prostrate carcass of the tinsel and glitter of supremacy.

THE NEED OF THE DEMOCRACY.—One thing is now certain, to wit: *Radicalism must, in future, rely upon prejudice and ignorance for success.* It is equally certain that Democracy must look to the intelligence and reason of the people for aid and recuperation of strength. Radicalism manipulates the unlettered and half-civilized ex-slaves of the South, by appeals to their cupidity and base passions, and thus hopes to maintain its power. But Democracy could not, if it would, resort to such dastard means. It must convince the thinking, coolheaded, patriotic people of the North, and by so doing it alone can succeed. How is this to be done? We answer, mainly through the influence of the press. Democratic newspapers are the surest and most effective engines that can be used in the work of the political regeneration of the people. Could every *Republican* in Adams county read a Democratic newspaper, weekly, for one year, there would be 1000 Democratic majority in the county at the succeeding election. The people need only to see and know *the truth* in regard to the doings of Radicalism, to cause them to turn their backs upon it. Hence, we would urge upon the leading Democrats of the different districts of this county, to canvass actively for subscribers to the COMPILER. Let the work commence *now*. Campaign papers are not of near so great service as regular issues. In every township some Democrat could make himself useful to the cause by inducing his neighbor to subscribe for his county paper. Of course this will benefit the publisher, but it will be of far greater advantage to the party. Now, friends, "put your shoulders to the wheel," and let your motto for the next three months be, "*Circulate the* COMPILER."

A GOOD, BUT VERY OLD TRICK.—The Radicals, just now, in their hot haste to nominate General Grant for the Presidency, remind us very much of the old time, when the slave trade was carried on pretty briskly between the coast of Africa and this continent. The Republican ship, freighted with the negro, has been overtaken by the fast-sailing clipper Public Opinion, and finding that it will be impossible to reach a haven within the next ten or twenty years, the pilot of the Republican has piped all hands to *throw the negro overboard!* The only question yet to be solved is, whether the commanders and crew of the "ill-freighted" vessel won't have to go overboard also; for the huge barnacles of corruption clinging to her are sufficiently heavy to drag out every plank from her hull.

GENERAL HOWARD, in his report of the Freedmen's Bureau for the last year, speaks of the good it has accomplished. But he says nothing of the evil it has done. He does not mention that his bureau employees act the part of emissaries of the devil in stirring up bad blood between the races at the South—that they cheat the negroes in many ways, and use their power as a political machine to control the votes of the blacks for the Radicals. There is abundant evidence that many of the agents use the Bureau for swindling, thieving purposes. No doubt in many cases it has been the means of doing good, but we might inquire what right Congress has to spend the people's money to educate, feed and clothe the Southern blacks? The Constitution grants no such power, and that instrument gives Congress all the authority it possesses over legislation. General Howard says the Bureau can be dispensed with after the first of next July, which we hope will be done.

GRANT DISTASTEFUL TO THE NEGROES.—The Pittsburg negroes have sounded the warning to the mongrels. At a meeting held there on the night of the 25th ult., they resolved that they saw no necessity for nominating General Grant for the Presidency, but very great necessity for nominating Salmon P. Chase. Monsieur nigger is the ruling man now in the mongrel camp, and he has got, not only to be consulted, but respected. Whoever the negroes nominate the Republicans must take. They have given strong evidence in the Southern elections that they are bound to shine.

IT is an important fact that the three largest and most powerful States in the Union, whose population is fully equal to one-third of the aggregate in the whole thirty-seven States—namely, New York, Pennsylvania and Ohio—have this fall declared against the course and "policy" of the Radical leaders. This important fact cannot be ignored, nor can the lesson it teaches be disregarded at the next session of the Rump Congress.

THE Cleveland Plaindealer urges the selection of Cleveland as the place to hold the next Democratic National Convention, and says that prominent gentlemen agree to erect a grand temple, to be used by the Convention in its sessions.

SERENADE TO AND SPEECH BY THE PRESIDENT.

President Johnson was serenaded at the White House, on Wednesday evening, by the Conservative Army and Navy Union and a large concourse of Democratic and Conservative citizens. The procession was very brilliant. Various army flags, banners, transparencies, lanterns, torches, &c., were carried in it, whilst during the march there was a continuous display of rockets and other fire works. There were three bands of music. A broom about four feet long and nearly as broad, with a huge handle, was significantly exhibited—the same that was presented to President Lincoln, and which was purchased at an auction sale.

Arrived at the Executive Mansion, there was a Presidential salute, as also a salute of one hundred guns. After music, a committee escorted the President to the front of the mansion, where he was greeted with repeated cheers. Col. O'Beirne stepped forward and congratulated the President upon the newly promised hope for the welfare of the country, as exhibited in the recent elections, trusting that the present may be a harbinger of future prosperity, tranquility, and brotherly love, throughout the land.

The President then addressed the assemblage at some length. He said: "I confess that I am gratified, but not surprised, at the result of the recent elections. I have always had undoubting confidence in the people. They may sometimes be misled by a lying spirit in the mouths of their prophets, but never perverted, and in the end they are always right. In the gloomiest hours through which I have passed—and many of them, God knows, have been dark enough—when our constitution was in the utmost peril, when our free institutions were assailed by a formidable force, and our great republic seemed to be tottering to its fall, and when I felt how vain were my efforts alone to preserve those institutions in their integrity, and to save the republic from ruin, I was still hopeful. I had an abiding confidence in the people and was assured that they in their might would come to the rescue. They have come, and thank God they have come, and that our republic may yet be saved. It was but the other day that I officially declared that the remedy for the present unhappy condition of the country must come from the people themselves. They know what that remedy is and how it is to be applied. At the present time they cannot, according to the forms of the constitution, repeal obnoxious laws. They cannot remove or control this military despotism. The remedy is, nevertheless, in their hands, and is a sure one if not controlled by fraud, overawed by arbitrary power, or from apathy on their part, too long delayed. But with abiding confidence in their patriotism, wisdom and integrity, I am still hopeful that in the end the rod of despotism will be broken, the armed heel of power lifted from the necks of the people, and the principles of a violated constitution preserved.

"The people have spoken in a manner not to be misunderstood. Thank God, they have spoken, for it is upon their intelligence and their integrity that I have always relied, and still rely. The constitution of the country, which was imperilled, has recently been before them for consideration, and it has had new life and vigor imparted to it from its original source—the people. It comes back to us with renewed strength and power. Let it now be translated high as in the heavens, written in letters of living light, as the symbol of liberty and union, justice, magnanimity and fraternity. Good night."

The President retired amid long and loud cheers.

"THUNDER ALL AROUND THE SKY."

MARYLAND.—The Democratic victory in Maryland is one of the most complete on record. Every county in the State has gone for the Constitution and a White Man's Government. The majority for Bowie, for Governor, reaches the enormous figures of 41,712—with a Legislature unanimously Democratic. Carroll, Frederick and Washington, the only counties in which the Radicals expected to be successful, have been carried by the Democracy, as follows: Carroll by 524, Frederick by 480, and Washington by 486. All the county officers elected in these are Democrats. In our neighboring district of Emmittsburg, just across the border, the Democracy were successful by the handsome majority of 140. White men in Maryland are free again!

NEW YORK.—The New York *Herald* states that the New York Senate will contain fifteen Republicans, fifteen Democrats and two Independent members, one of whom is a Republican and the other a Conservative—so that neither party has a majority in that body on political questions. The Assembly will contain 71 Democrats and 57 Republicans—a Democratic majority of 14. The Democratic majority on the popular vote may reach 48,000.

MASSACHUSETTS.—The Boston *Journal* says that the Republican majority in that State will be 27,000—against about 65,000 last year. The official vote of Boston foots up: Adams, Democrat, 9,404; Bullock, Republican, 7,322. Democratic majority, 2,072.

WISCONSIN.—The Radical majority for Governor is estimated at from 5,000 to 6,000, a large Democratic gain since last year, when the Republican majority was 23,907.

MINNESOTA.—Marshall, Radical, is re-elected Governor by about 4,000 majority. Last year the Radical majority was over 10,000.

NEW JERSEY.—The Democrats were beaten last year by nearly 3,000. Now they have the State by more than 13,000—and a large majority in the Legislature.

ASHAMED OF THEIR VICTORY.—The Pittsburg *Chronicle*, moderately Radical, says the Virginia election "cannot give our people much satisfaction," "if we may give credence to the telegraphic reports that the polls were opened and closed without regard to the regulations prescribed for conducting elections."

GEN. POPE, finding that he could not carry the the "Convention" in Georgia after two days' voting, continued the election for *five days*. This enabled him to get the needed reinforcements. What do you think of it?

THE New York *Tribune* lately said:

If the blacks are not enfranchised, Vallandigham could beat General Grant for President.

Then Greeley only wants the negroes to vote to help the Radicals to elect a President. Grant or anybody else who carries the negro will be beaten for the Presidency.

JUDGE WILLIAMS is reported by his friends, as willing to lose his right arm rather than contest the seat of Judge Sharswood on the Supreme Bench.—*Pittsburg Post.*

CHARLES DICKENS sailed for this country on the 9th, in the Cuba.

MONSTROUS!

The hideous features of Congressional Reconstruction are, at last, being unveiled. It is now certain that *eleven States* of this Union are placed under the absolute domination of the blacks. These are Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Arkansas, Tennessee, Louisiana, and Texas. In these States there are *ten millions of whites*, and about *four millions of blacks*. The Reconstruction Acts disfranchise at least three-fourths of the whites, whilst they enfranchise *all* the blacks. Thus four millions of blacks are permitted, nay *compelled*, by the Radical party, *to rule more than twice their number of whites.* This, in itself, is horrible enough. This alone challenges the condemnation of every thinking mind, and stirs with indignation every patriotic heart. Nor is the monstrosity of this fact lessened by the reflection that an immense standing army, maintained at an estimated cost of two hundred millions of dollars, annually, to the people of the United States, is the engine with which this diabolical scheme is enforced. But there is another consideration in connection with this subject, which increases and intensifies the disgust and indignation at this Radical plot which are now uppermost in the breasts of the Northern people. It is this: Four millions of Negroes, ignorant, degraded, semi-barbarous, not only rule ten millions of whites in the South, but are to overbalance, by representation in Congress, twelve millions of white people in the North. To illustrate: *The eleven States placed under Negro control, will have 60 Representatives and 22 Senators in Congress. New York, Pennsylvania and Ohio, with a population of upwards of twelve millions of whites, will have 61 Representatives and 6 Senators in Congress. Thus, the twelve millions of whites in New York, Pennsylvania and Ohio; will be out-voted in the National Legislature, by the four millions of blacks in the South!* We mistake nothing in making these assertions. Figures will not lie. Let the reader turn to the census tables and make the calculation for himself. Finding our statements to be true, if he be a "Republican," what does he propose to do? Will he continue his allegiance to a political organization which has established this monstrous engine of political power and now seeks to fasten it upon the country forever? Will he cling to a party which thus aims to crush out the practical good sense and political virtue of the Northern people, by overbalancing their power in the government with the votes of brutish Negroes? It cannot be. Party ties were never so strong that they could bind men to measures at which their better nature revolts. Prejudice and pride and fear cannot restrain intelligent American freemen from breaking the shackles of party and rushing forward to the rescue of their country, even if it be in the company of former political opponents. Oh! men of the North! Free Men! White Men! Do you not see the black storm that is gathering around you? Be ye prepared, for even now the red lightning plays along the sky, and the approaching thunder mutters in the distance. Let the ark of the Constitution be made strong, for it must outride fierce gales and rough seas, ere it land once more upon the Ararat of safety.—*Bedford Gazette.*

WENDELL PHILLIPS ON GRANT.

On Tuesday of last week, the "Friends of Freedom," which means the Radical abolitionists, had a meeting at Kennett Square, Chester county, to consider the situation. Among the speakers was Wendell Phillips, who delivered a philippic against slavery and conservatism. He opposes the nomination of General Grant for President. Speaking on this subject—

Mr. Phillips said he had no enmity towards General Grant, but he was decidedly opposed to placing a man in the position of President of the United States whose sentiments were unknown. He pleaded for safety instead of doubt, and did not want to see intelligent people cheated a second time. General Grant was a Democrat and a West Pointer, two elements that have *rarely made a radical*, and when you add to that that he passed through the war, and has never shown the unmistakable existence and out-spoken and impulsive sympathy with which you and I are identified, it is a doubtful case. I do not mean in any *criticism to hurt General Grant*, to be unjust to him. I claim the right of an American citizen, before he takes the reins of power, to know where he means to drive us. (Applause.) I have sounded every public man whom I have come in contact with, who knows Gen. Grant personally and intimately, but I never yet found the man who would undertake to say, of his own knowledge, that General Grant was a radical in his views of the future policy of this country.

A STINGING REPLY.

A Radical journal, in Ohio, is anxious to know what the Democrats are going to do with their victory. The Chillicothe *Advertiser* answers by this pungent hit at the policy of the Radicals in Congress:

"In answer, we will neither hang or threaten to hang, or imprison, or mob, or insult them for having an opinion different from our own. The majority in our Legislature will not refuse admission to the members of the Reserve because they represent a section antagonistic to us in politics. It will not, for the purpose of getting a two-thirds vote, turn enough Radicals out to secure it; neither will it appoint a committee to enquire whether Ashtabula and Lorain counties have a republican *form* of government to secure a pretext for depriving them of representation. The liberties and rights of Radicals under Democratic rule, will be as sacredly guarded and protected as those of Democrats."

The course of the majority in Congress in expelling Brooks and Voorhees from the House, and Stockton from the Senate, in order to get a two-thirds vote for their infamous schemes; their insolence in refusing Thomas from Maryland, his seat, and their unjustifiable refusal to admit the representatives from Kentucky into the House, as well as their mob policy during the war, are well hit off by the *Advertiser*.

THE noted Abolitionist, Gerrit Smith, sees the difficulties which lie in the path of the Southern negroes. He candidly says:

Great is my fear that this demand of too much for the blacks, as conditions of "reconstruction" and terms of peace between the North and South, will not only seriously affect their spirit and character, but will in the end leave them in possession of less rights, less property, less advantages, than would have been cheerfully conceded to more moderate demands for them.

The recent elections in the Southern States show that the two races have been brought into direct antagonism by the fanatical doings of Congress. The negro no doubt is wild with delight at his sudden elevation; but his pride will necessarily have a most terrible fall. He cannot rule one-half of this country. He will never be able to maintain his supremacy over the whites; and in the end he will have good reason to curse the Northern Radicals, who are now attempting to make him a stepping stone to power for themselves.

JUDGE THURMAN will be elected the next United States Senator from Ohio.

The Union Pacific Railroad—What It is, and what It Will Be.

Our readers have heard of it lately, and they will hear more of it at very brief intervals. Five hundred miles of track have been laid from the East, and an artery for the iron way has been cut through the stony heart of the Sierra Nevadas on the west. For two or three years more along a line stretching across the Rocky Mountains and through the Humboldt Valleys, there will be the bustle and rush of a great army, with its long trains and busy camps, and there will be a smell of burning powder, and shocks and echoes like a great battle. But this army is not to destroy, but to create. Its trains are not loaded with bristling weapons, but with picks and shovels, and its artillery sweeps away nothing but the defiant rocks that have stood for long ages in the way of advancing civilization. In two or three years, the builders of the West coming East, and the builders of the East going West, will meet somewhere about Salt Lake, and then we shall have the grandest civic celebration of modern times.

The two great divisions of a continent will be united amidst national rejoicings, and all the great officers and a host of the great people will be present to witness the august ceremony. We can now imagine that we see the President of the United States driving the last spike to the rail which is to bind the Atlantic and Pacific States together in a national unity and prosperity such as we have never known before. Thousands who have been waiting some better means of reaching California than a crowded steamer and near a month's passage offered, will seek homes among the gold mines and gardens by this new and speedy means of transit. Vine-growers from Germany will swarm upon her hills, than which none are more productive of wine; and far up the vast regions through Oregon, and Washington Territory, to our new Russian Possessions, the tide of an increasing population will ebb and flow over this Pacific Railroad.

The idea of the work was a grand one. It had become indispensable to the development and safety of the nation, and nothing less than the nation's power could execute it. We are practically, to-day, almost twice as far from San Francisco as from St. Petersburg, and in case of war, one side of our country would be almost severed from the other. The nation needed this Pacific Railroad to develop its vast territories, which are so rich in lands, mines, and treasure, and to overcome barbarism with the institutions of religion, science and art.

These, as well as other reasons, induced Congress to grant the most substantial aid to the two great companies that are now constructing the Pacific Railroad and telegraph line, and that have already spent over forty million dollars upon it. The land grant of 12,800 acres to the mile is certainly munificent, but it increases the value of every other acre in that vicinity tenfold. The grant of fifty million dollars in Government bonds on which the U. S. Treasury pays the interest, and for which it takes a second lien upon the road as security, is large, but the Union Pacific Railroad carries troops, freights and mails for the government to an amount which pays this interest several times over. No other public work ever gave such promise of future usefulness or profit.

The Union Pacific, unlike other railroad companies, is a thoroughly *national* Company. It derives its charter directly from Congress, and five Government Directors and three Government Commissioners assist in the control and inspection of its affairs. It will be the great *central railroad* of the country, and, of course, will be the artery of an immense commerce. And this answers the natural inquiry, "Will the road pay?" We don't see how it can help it. The traffic that is waiting for it and that will be developed by it is beyond contingency, and as there will be no rival line, it is very likely that the Company will not forget to charge remunerative prices. The way, or local business on but 325 miles, yielded over a million dollars in a single quarter of the present year, and shows that every section is a productive property in itself as soon as completed.

Under such circumstances, the Union Pacific Company has every reason to anticipate the most brilliant success, and we do not wonder that it is inspired to make the greatest efforts to secure the completion of the line at the earliest possible moment. Its stockholders have already paid in over five million dollars in money upon the work already done, and are able to supply ample means for construction. But if a company which has already shown so much energy could fail in finishing their work (which no one believes possible,) it would not cease. The Government that holds the second lien upon the road would be compelled to come in and complete it to protect its own interests, and the security of the First Mortgage Bondholders would remain unimpaired. Hon. John J. Cisco, for many years Assistant Treasurer of the United States in New York, is one of the Directors, and also the Treasurer of this Company. He is well known to be a gentleman of most conservative opinions and careful judgment in all financial matters, and we notice that he recommends these bonds as among the *safest* securities.—*Exchange.*

CONGRESS will re-assemble, pursuant to adjournment, on Thursday next. The country has had too much "Congress" already.

SINCE Tuesday week's elections gold has been going down and national bonds going up. Will some of our Radical friends tell us the reason?

ON Friday, the 8th, Judge Sharswood tried his last jury case before he takes his seat on the Supreme Bench. He has presided over the District Court 22 years and seven months.

RADICAL equality, says the St. Paul *Pioneer*, means $1,500 shawls for the President's wife, and $13 a month for a soldier's wife.

SUNDAY CAR QUESTION.—On the 7th instant, the Supreme Court, sitting in Pittsburg, decided that the running of passenger cars on Sunday was not illegal, and therefore not a "breach of the peace."

VERY TRUE.—"Uncle Jake" Ziegler, of the Butler *Herald*, says with truth that under Radical rule "there seem to be but two things left the people—*pray to God, and pay taxes!*"

THADDEUS STEVENS, in a letter to John Guyger, banker, says that Congress did not intend to commit the Government to the payment of the principal of the five-twenty bonds in gold. Hope old Thad. isn't preparing to turn "copperhead."

SOUTH CAROLINA registration shows a negro majority of 33,834. The whites have majorities in only 9 out of 31 districts.

IT is said that Garibaldi, his sons, and principal lieutenants, will leave Italy and come to the United States.

Local Department.

TOWN, COUNTY AND SURROUNDING COUNTIES.

Snow.—The first snow of the season in this region, fell on Tuesday. It wasn't much of a "fall" though.

For Sale.—Thaddeus Stevens offers Caledonia Iron Works at private sale.

Dividend.—The Gettysburg Water Company has made a Dividend of five per cent.

Appointed.—Gov. Geary has re-appointed Robert Martin, Esq., Notary Public for Gettysburg, for a term of three years.

Joseph S. Gitt, Esq., of this county, has gone to Bangor, Maine, to take charge of 100 miles of the European and North American railroad.

Call Accepted.—Rev. H. C. Grossman has accepted a call to the Lutheran church at New Chester, and has entered upon his duties. He succeeds Rev. D. M. Blackwelder.

Special Court.—A Special Court, for the trial of Common Pleas cases, has been ordered to commence on the 9th of December.

Prof. P. Bentz, of York, telegraphs that he cannot be here (to sell and tune instruments) until next week. He regrets the delay, but could not help it.

The Indian Doctor will remain at the Eagle Hotel, Gettysburg, until Tuesday next, the 19th, where he can be consulted at all hours of the day.

Present.—Mr. F. H. Eckenrode, of Highland township, presented us, the other day, with several very fine sweet pumpkins. He has our thanks.

Accident.—On Tuesday last, Mrs. Lightner, wife of Nathaniel, of Cumberland township, whilst going to the spring, tripped and fell, dislocating her left shoulder. Dr. O'Neal was sent for, who gave the case the proper attention, and she is now getting along very well.

Wood!—Wood!—Wood!—Cold weather is upon us, and we are out of wood. A number of our subscribers expect to pay us this fall with wood. Will they please bring it "right along?" We *must* have it *now.*

The Gettysburg Building Association has been in operation six months, and is in a very prosperous condition. A statement made at the last meeting, by a committee appointed to prepare it, shows that $1,661.88 have been made in premiums, $121.80 in interest, and $11.90 in fines during that time, and that the assets over liabilities are $8,208.28. The amount which has been paid on each share is $13.00, of which the actual value is $16.41½, and the market value about $25.

Gettysburg Spring.—It is understood that Mr. Harmon has negotiated with a New York party for a lease of the right to bottle the water of the Gettysburg Spring, for which a large demand has been created. These persons visited town last week, and have made a conditional purchase of property which they deemed important in the prosecution of their business. They have contracted for 10 acres of timber adjoining the Harmon property, and belonging to Messrs. Fahnestock and Eichelberger, for $200 an acre; and for the farm of Hon. Edward McPherson, 116 acres, for $8,000. The indications are favorable to a systematic and extensive introduction of this valuable water.

Straban Infantry.—The *Star*, in a local last week, referred to the Straban Infantry as follows: "They are said to be trying to hurry up the complete organization, and get their arms, so as to be ready to co-operate with Swann's militia when called on by Andrew Johnson."

The members of the Straban Infantry want to know *who said so* to the editors of the *Star*. They are slow to believe that a falsehood so utterly baseless—and so mean—could have originated with said editors, and therefore ask, as a matter of justice all around, that the name of the informant be given. Will it be done?

Rejoicing.—The Democratic gun, "Penelope Ann," was fired on Cemetery hill, on Saturday evening, in honor of the Democratic victories in New York, New Jersey and Maryland, and the Radical losses in the West. The gun never "talked" with more *emphasis*—evidently feeling that she never had more occasion to do so. Big victories—big thunder!

A resident of Hampton informed us the other day that the reports of the firing were very *distinct there*—so loud as to lead to the supposition that it occurred at New Chester, or Hunterstown at farthest.

Court.—November Court will commence next Monday. From the amount of business on hand, it is likely to bring together a large number of people—and thus afford many opportunities for sending money to the printer.

Our expenses are heavy, and require corresponding receipts every day. Since the enlargement of the COMPILER an additional hand (sometimes two) has been required in the office, with an increased outlay for white paper and materials generally. And this without our raising the subscription price of the paper—which remains at $2. Under these circumstances, it is apparent that money must come in promptly. Those who work for us need it—and those from whom we buy ask it—not next week or next year, but cash down.

Some may justify themselves in delay by the supposition that if we could purchase a first class new Power Press, and "fix up" our office generally, at a cost of $3,000, we can afford to wait. The point is badly taken—the argument should be just the other way. Besides having to meet increased expenses continually, (in order to give our patrons one of the largest papers in the State,) we will soon be compelled to pay a considerable amount borrowed to secure the new Power Press, &c. Several of the obligations will be due shortly—one next week.

With money enough on our books to see us clear of all indebtedness, we appeal to those in arrears to PAY UP AT ONCE. Bring it in or send it in—any way, so it comes in!

To such as have paid promptly, we are under renewed obligations. Thanks—many thanks! May all now in arrears soon place themselves in the same class.

Arriving.—Rebert & Elliott are just receiving another supply of Fall and Winter Goods, which they are able to sell at the lowest prices, having bought them at the latest decline. To a large stock of Dress Goods, &c., they have added a very select and desirable assortment of Furs. Call in and examine goods and prices—at the new Store, opposite the Court-house.

The Question Settled.—Those eminent men, Dr. James Clark, Physician to Queen Victoria, and Dr. Hughes Bennett, say that consumption can be cured. Dr. Wistar knew this when he discovered his now widely known Balsam of Wild Cherry, and experience has proved the correctness of his opinion.

Railroad Accident.—Mr. S. Keller, a drover, of Somerset county we believe, met with a serious accident, yesterday, near Hanover, where the Railroad crosses the McSherrystown road. The approach of the noon train for Gettysburg frightened the horse he was riding, and becoming unmanageable, threw Mr. Keller with his right foot upon the track, which the wheels of the rear car crushed in a most horrible manner. The injured man was at once taken back to Kohler's hotel, where the foot was amputated by Drs. Smith and Culbertson. Mr. Keller is represented as a worthy and respectable gentleman by many who know him in this region, and by whom this accident is deeply regretted. He has a drove of some 70 cattle now in pasture at Francis Bream's, on Marsh creek, we are told.

Sabbath School Convention.—The Sabbath School Convention to be held here week after next, promises to be interesting. The following programme has been communicated to us for publication:

Wednesday morning, 10 A. M.—Address by Rev. A. Taylor—subject, Sacred Geography; Blackboard exercises by J. A. Gardner; Discussion by the Convention—question, Should schools in the country be kept open the whole year?

Wednesday evening, 6½ P. M.—Address by Rev. Thomas A. Fernly—subject, Power of Sabbath Schools; Report of the Secretary; Discussion by the Convention—question, How can we best cultivate the spirit of Christian beneficence in the Sabbath School?

In all discussions in the Convention, the speeches will be limited to five minutes, thus affording opportunity for a general expression of views.

A few minutes at the opening of each session will be occupied by devotional exercises, and the proceedings will be varied by appropriate and popular Sabbath School music.

Property Sales.—Joseph Mannock has purchased, from the Administrator of Dr. Eckert, the house and lot on the corner of East Middle and Stratton streets, in this place, at $400 cash.

Alex. Jacobs has sold his property, in New Oxford, to Cornelius Miller, at $2,700—not $1,275, as previously stated.

John Norbeck has sold his property, at Green Ridge, in Hamilton township, to Henry Speck, of Gulden's Station, at $1,600 cash.

Samuel Herbst has purchased Hannah Kitzmiller's house and lot on the Railroad, for $1,025, and is about building a large stable on the rear of the lot.

John Bushman has purchased the property of Hon. Joel B. Danner on Breckinridge street, for $750.

Matthew Eichelberger has sold his row of four houses on Chambersburg street, below West, to Fahnestock Brothers and William A. Duncan, for $2,500 cash. They have re-sold two of the houses—that on the eastern end to William T. King for $1,000; and that next to the western end, to Wm. E. Culp, for $900

Perry J. Tate has sold his house and one acre of ground on the Chambersburg road, to Cyrus S. Griest, for $1,600.

The real estate of Frederick Stockslager, deceased, on Little Marsh creek, was sold on Saturday last, as follows: The home farm, containing 230 acres, was bought by A. F. and I. J. Stockslager, at $46 50 per acre; the Orr farm—200 acres with the buildings, were bought by John Hartman, at $37 per acre, and 70 acres by John Cover, at $34 per acre; and the Mill property by Isaiah Stockslager and John Nary, at $4,050.

William D. Himes, Esq., of New Oxford, recently bought the Margaretta Furnace property, near Wrightsville, at Sheriff's sale, for $26,000.

William H. Lott, Esq., has bought the property of John Sheeleigh, in Mountpleasant township—about 14 acres—for $1,500.

A Frightful Run-Off.—On Thursday, of last week, Mr. Wm. H. Wanamaker, of this place, started for Gettysburg in his buggy, driving two horses. When he reached the summit of the South Mountain, his horses took fright, and becoming unmanageable, ran with fearful speed down the other side of the mountain. As they turned the curve near the hotel of Mr. Geo. A. Corwell, they ran into another machine coming up the hill, in which were an old lady and a little boy, whose names we have been unable to learn. The pole of his buggy struck the horse (belonging to Mr. Robert Black, of Greenwood,) in the groin, inflicting an injury from which he is not likely to recover. Mr. Wanamaker was thrown over the dasher of his buggy upon the turnpike. The other carriage was upset and its inmates were thrown out. Fortunately none of them were seriously injured. Mr. Corwell and Mr. Wm. Kane rendered all the assistance in their power, and succeeded in "reconstructing" both parties so as to enable them to pursue their respective journeys.—*Valley Spirit.*

The finest Grapes in America.—Mr. Alfred Speer, the maker of the celebrated Port Grape Wine, says, it is about the size of the Isabella, and that it is the finest on this continent. He has refused thousands of applications for the plant, as he requires all available cuttings for the extension of his vineyards. He has orders for his wine from Europe. Our druggists have procured some four years old.

THE Democracy of New Haven, Connecticut, carried the town election on the 5th by 1,400 majority.

A REVOLTING OUTRAGE.

On Thursday last, our community was thrown into great excitement by the perpetration of a shocking outrage by a negro, who calls himself Ed. Jones, upon the person of Miss Antoinette Cline, a very respectable young lady of sixteen, who resides several miles from this city. Whilst the young lady was proceeding in the direction of her home, about a quarter of a mile from town, she saw the negro approaching, and becoming frightened, ran. The negro started after her, caught her, threw her down, and regardless of her screams and resistance, violated her person, after which he fled. The young lady was discovered crying, shortly after, by a gentleman of this city, who questioned her as to the cause of her weeping, but she refused to tell until taken to the nearest house, where she communicated the facts of the horrible crime. Diligent pursuit was made to capture the negro, which ended in success on Saturday evening last. Miss Cline identified the negro, and he is now in jail, awaiting the action of the Grand Jury. So strong and universal was the revengeful feeling excited against the perpetrator of this brutal outrage, that Judge Nelson ordered the examination of the prisoner, preliminary to his commitment, to be conducted in the jail, lest popular violence should anticipate the just punishment which the law provides for such horrible crimes. We will not say that the frequent occurrence, lately, of this revolting crime by base inhuman negroes upon white females, generates from the efforts of low, mean white politicians to elevate the negro to a political and social equality with the Anglo Saxon, but we will say that prior to the war, this crime was rarely, if ever, committed by a negro. This is the fourth case of the kind that has transpired in this county within the last eighteen months.—*Frederick Citizen.*

A HOMICIDE IN WASHINGTON COUNTY, MD.—On Friday night the people of Funkstown were startled by the report of several pistol shots, which proceeded from the residence of Mr. Simon Middlekauff, a respectable and peaceable citizen of the town. It appears that on the night in question a ball was in progress at the residence of Mr. M., which was attended by the young folks of the town and neighborhood, and that a young man by the name of John South, youngest son of the late Daniel South, formerly sheriff of this county, while under the influence of liquor, and armed with a revolver and knife, attempted to force himself into the house for the purpose of breaking up the ball. He made his way to the second story of the building, in the direction of the ball-room, but was met in a room adjoining that in which the ball was held by Mr. Middlekauff, who endeavored to prevent him from entering the ball-room, and ordered him out of his house. Instead of going, as he should have done, South drew his revolver and snapped it at Mr. M., and then advanced upon him with his knife drawn. Middlekauff thereupon, in self-defense, fired three shots at him, two of which took effect, one ball entering his neck, severing the jugular vein, and the other his side. He staggered into the ball room, the blood spurting from his wounds upon the dresses of the ladies, where he fell and expired in a few minutes. Middlekauff was arrested and held by nominal bail for his appearance at Court.—*Hagerstown Herald.*

HENRY WARD BEECHER'S late novel, "Norwood," has been dramatized and produced on the stage. The new play would seem to be decidedly sensational and spectacular, Gettysburg and Sumter affording two of the scenes, and the President's proclamation being read in full.

EXECUTION OF A MURDERER.—Neal Deveny was hung at Wilkesbarre, Pa., on Tuesday, for the murder of his wife on the 24th of July. He made a full confession, stating that he shot her in the breast, and assigned the cause of the crime to have been his keeping bad company.

AN Ohio paper remarks that "The Democrats ought to be satisfied. We have the U. S. Senator, the Legislature, beat the Negro amendment, and won nearly all the money the Republicans staked on the general result."

Dyspepsia.

There is no disease which experience has so amply proved to be remediable by the PERUVIAN SYRUP, (a protected solution of the Protoxide of Iron,) as Dyspepsia. The most inveterate forms of this disease have been completely cured by this medicine, as ample testimony of some of our first citizens proves.

FROM THE VENERABLE ARCHDEACON SCOTT, D. D.

DUNHAM, Canada East.

* * * "I am an inveterate Dyspeptic of MORE THAN 25 YEARS STANDING."

* * * "I have been so wonderfully benefited in the three short weeks during which I have used the Peruvian Syrup, that I can scarcely persuade myself of the reality. People who have known me are astonished at the change. I am widely known, and can but recommend to others that which has done so much for me." * *

ANOTHER CLERGYMAN WRITES AS FOLLOWS:

"My voyage to Europe is indefinitely postponed. I have discovered the 'Fountain of Health' on this side of the Atlantic. Three bottles of Peruvian Syrup have rescued me from the fangs of the fiend Dyspepsia."

A pamphlet of 32 pages, containing a history of this remarkable remedy, with a treatise on "Iron as a medicine," will be sent free to any address. The genuine has "PERUVIAN SYRUP" blown in the glass.

Horrible Accident.

A man some time since was repairing a gas leak, corner of 28th Street and 9th Avenue, New York. He went into the excavation and then lit a match. An explosion of the gas took place, and the man was much burned. Dr. Tobias' Venitian Liniment was applied freely, and in three days the man was about his business in the Manhattan Gas Works as well as ever. His name is Samuel F. Waters. This is one of the wonderful cures made by Dr. Tobias' celebrated Venitian Liniment; it is not only good for Burns, Throats, Cuts, Insect Stings, Pains in the Limbs, Chest and Back, also internally, for Colic, Cramps, Diarrhoea, Dysentery and Croup. It is perfectly innocent to take internally, and is the best family medicine in the world. Orders are received all over Europe for it. The most celebrated Physicians recommend it. It never fails. Dr. Tobias puts up every drop himself. Sold by all Druggists at 50 cents and $1 per Bottle. Depot 56 Cortland Street, N. Y.

Woman's Helpmate.

It is a trite old adage, "Nobody knows what Good Health is, until they get sick." Very true, and when once ill, it is well to know what to do prudently, in the way of administering medicine. To those afflicted with Dysentery, Diarrhoea, Costiveness, Indigestion, Biliousness, Dyspepsia, Fevers, Nervous Diseases, Torpid Liver, Foul Stomach, &c., both sexes should invariably use Radway's Regulating Pills, as they are effective and very efficacious. They are also woman's helpmate for certain derangements of the sexual organs—and a blessing to suffering humanity. Warranted to effect a positive cure, are purely vegetable, containing no mercury or minerals. For fullness of blood to the Head, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Dimness of Vision, &c., these Pills quickly restore each and every organ to its natural tone and health. Sold by Druggists. Price 25 cents per box.

A Card to the Ladies.

DR. DUPONCO'S GOLDEN PERIODICAL PILLS FOR FEMALES. Infallible in correcting Irregularities, Removing Obstructions of the Monthly Turns, from whatever Cause, and always successful as a Preventive.

It is now over thirty years since the above celebrated Pills were first discovered by Dr. DUPONCO, of Paris, during which time they have been extensively and successfully used in most of the public institutions, as well as in private practice, of both hemispheres, with unparalleled success, in every case, and it is only at the urgent request of the thousands of ladies who have used them, that he is induced to make the Pills public for the alleviation of those suffering from any Irregularities whatever, as well as to prevent an increase of family where health will not permit it.

ONE PILL IS A DOSE.

Females peculiarly situated, or those supposing themselves so, are cautioned against using these Pills while in that condition lest they "invite miscarriage," after which admonition, the Proprietor assumes no responsibility, although their mildness will prevent any mischief to health, otherwise the Pills are recommended as a MOST INVALUABLE REMEDY for all those afflicting complaints so peculiar to the sex.

ONE BOX IS SUFFICIENT.

10,000 Boxes have been sold within Two Years. Ten Thousand Boxes sent by Mail, both by myself and Agents, to all parts of the world, to which answers have been returned, in which ladies say, nothing like the above Pills have been known since the Science of Medicine dawned upon the world, in Removing Obstructions and Restoring Nature to its Proper Channel, Quieting the Nerves and bringing back the "Rosy color of Health" to the cheek of the most delicate.

Price $1 per Box. Six Boxes $5.

Sold by JOHN S. FORNEY, Druggist, Sole Agent for Gettysburg, Pa.

Ladies, by sending him $1 through the Post Office, can have the Pills sent, (confidentially,) by Mail, to any part of the country, "free of postage."

Sold also by J. Spangler, Chambersburg; G. W. Neff, York; Coleman & Rogers and Brown Brothers, Wholesale Agents, Baltimore, and S. D. Howe, Proprietor, New York.

INSCRIPTION.

We suggest to our Republican friends the following inscription for the tomb of their black bantling:

Here lies
The Body of
RADICAL REPUBLICANISM,
Born, A. D. 1856,
Died, A. D. 1867.
Aged, 11 years.
An excellent midwife, "Woolly Horse," by name, presided at his birth.
Fraud, Treason, Discord and Division were the milk of his early years.
A fratricidal war supported his middle life.
Corruption, Bribery, Theft and Immorality distinguished his latter days.
An overdose of "Nigger and Treason," administered in Pennsylvania by the distinguished Surgeons, Simon Cameron and Thaddeus Stevens, aided by a fatal disease of the kidneys, produced by the fragments of the Constitution sticking therein, produced his
death.
His grave was dug, October 8, 1867.
His body was therein deposited, November 5, 1867.
"He has fought his last fight, he has seen his last battle.
No sound will awake him to *plunder* again."
By this time, he stinketh.

Children of Mary, high your voices raise!
For whom she cast her tender eye;
Children of God, sing her immortal praise,
And all exalt her glory to the sky!
We are traveling home to God, in the way the Fathers trod; they are happy now, and we soon Her happiness shall see. Beautiful Mary, Sweetest of mothers, receive our lays, receive our hearts!
O, ye banished sons, be glad, Christ our advocate
Is made, us to save, our flesh assumes, brother to our souls becomes. Lord, obediently we go, gladly
Leaving all below; only thou our leader be, And we still will follow thee.

PATENT

METALLIC OR WHITE WIRE

FOR

CLOTHES LINES.

WE beg leave to call your attention to an entirely new quality of Wire known as Metallic or White Wire, possessing a coating which prevents it from corroding or turning from its uniform color during any number of years, and on which Letters Patent have been secured. It has been found to be the only article suitable for clothes lines, except the old-fashioned rope or cord, which always gives so much trouble and annoyance by breaking, rotting out, and discoloring the clothes, and by being obliged to put it up and take it down every time used. With this Wire Clothes Line you have none of these annoyances, and when it is once put up it gives you no more trouble. After using it we are confident you will fully corroborate the statements of thousands of others in its praise. Every family should, and will eventually have one. It will not rust or corrode, though you may keep it in water for any length of time, even salt water.

Six Reasons why every family should have one of these PATENT WHITE WIRE CLOTHES LINES.

1st. You never have to take it in, no matter what the weather may be; the weather will not affect it.

2d. It will last from twenty to fifty years, and during that time you will wear out fifty ordinary lines, besides suffering an untold amount of trouble and annoyance with them.

3d. It is the cheapest line in the world, to say nothing of its great convenience. A good rope line costs about 1 cent per foot, and this only 3 cents. This will last a lifetime, while that with care will last about one year. This Wire, at 3 cents per foot, is cheaper than a rope line.

4th. You cannot load it heavy enough with clothes, and the wind never blows strong enough, to break it—1500 lbs. being its breaking weight.

5th. It does not in any way discolor, wear or injure clothes that are hung upon it, and they never freeze to it. The finest fabrics can be removed instantly in the coldest weather without injury. This is a decided advantage over the rope line.

6th. It will save its price in saving you trouble and annoyance every three months you own it.

PRICE 3 CENTS PER FOOT. Money refunded if not found exactly as represented, after the most thorough trial.

500 MILES

OF THE

UNION

PACIFIC RAILROAD,

Running West from Omaha

ACROSS THE CONTINENT,

ARE NOW COMPLETED.

THE Union Pacific Railroad Company have built a longer line of railroad in the last eighteen months than was ever built by any other company in the same time, and they will continue the work with the same energy until it is completed. The Western Division is being pushed rapidly eastward from Sacramento by the Central Pacific Company of California, and it is expected that

THE ENTIRE GRAND LINE

to the Pacific will be open for business in 1870. MORE THAN ONE-THIRD OF THE WORK HAS ALREADY BEEN DONE, MORE THAN ONE-THIRD OF THE WHOLE LINE IS NOW IN RUNNING ORDER, AND MORE LABORERS ARE NOW EMPLOYED UPON IT THAN EVER BEFORE. More than

FORTY MILLION DOLLARS IN MONEY

have already been expended by the two powerful companies that have undertaken the enterprise, and there is no lack of funds for its most vigorous prosecution. When the United States Government found it necessary to secure the construction of the Union Pacific Railroad, to develop and protect its own interests, it gave the Companies authorized to build it such ample aid as should render its speedy completion beyond a doubt. The available means of the Union Pacific Railroad Company, derived from the Government and its own stockholders, may be briefly summed up as follows:

1.—UNITED STATES BONDS.

Having thirty years to run and bearing six per cent. currency interest at the rate of $16,000 per mile for 517 miles on the plains; then at the rate of $48,000 per mile for 150 miles through the Rocky Mountains, then at the rate of $32,000 per mile for the remaining distance, for which the United States takes *a second lien* as security. The interest on these bonds is paid by the United States government, which also pays the company one-half the amount of its bills in money for transporting its freight, troops, mails, &c. The remaining half of these bills is placed to the company's credit, and forms a sinking fund which may finally discharge the whole amount of this lien. The claims against the government since April of the current year amount to four and one-half times this interest.

2.—FIRST MORTGAGE BONDS.

By its charter the Company is permitted to issue its own First Mortgage Bonds to the same amount as the bonds issued by the government, *and no more, and only as the road progresses*. The Trustees for the bondholders are the Hon. E. D. Morgan, U. S. Senator from New York, and the Hon. Oakes Ames, Member of U. S. House of Representatives, who are responsible for the delivery of these bonds to the Company in strict accordance with the terms of the law.

3.—THE LAND GRANT.

The Union Pacific Railroad Company has a land grant or absolute *donation* from the government of 12,800 acres to the mile on the road, which will not be worth less than $1 50 per acre at the lowest valuation.

4.—THE CAPITAL STOCK.

The authorized capital of the Union Pacific Railroad Company is $100,000,000, of which over $5,000,000 have been paid on the work already done.

THE MEANS SUFFICIENT TO BUILD THE ROAD.

Contracts for the entire work of building 914 miles of first-class railroad west of Omaha, comprising much of the most difficult mountain work, and embracing every expense except surveying, have been made with responsible parties who have already finished over 500 miles, at the average rate of sixty-eight thousand and fifty-eight dollars ($68,058) per mile. This price includes all necessary shops for construction and repairs of cars, depots, stations and all other incidental buildings, and also locomotives, passenger, baggage, and freight cars, and other requisite rolling-stock, to an amount that shall not be less than $5,600 per mile. Allowing the cost of the remaining one hundred and eighty-six of the eleven hundred miles as wanted to be built by the Pacific Company to be $90,000 per mile.

THE TOTAL COST OF ELEVEN HUNDRED MILES WILL BE AS FOLLOWS:

914 miles, at $68,058	$62,205,012
186 miles, at $90,000	16,740,000
Add discounts on bonds, surveys, &c	4,500,000
Amount	$83,445,012

As the U. S. Bonds are equal to money, and the Company's own First Mortgage Bonds have a ready market, we have as the

AVAILABLE CASH RESOURCES FOR BUILDING ELEVEN HUNDRED MILES:

U. S. Bonds	$29,328,000
First Mortgage Bonds	29,328,000
Capital stock paid in on work done	5,369,750
Land Grant, 14,080,000 acres, $1 50 per a.	21,120,000
Total	$85,145,750

The company have ample facilities for supplying any deficiency that may arise in means for construction. This may be done wholly or in part by additional subscriptions to capital stock. Active inquiry has already been made for a portion of these lands, and arrangements are now proposed to offer a part of them for sale. While their whole value will not be available for some years to come, they will remain a very important source of revenue to the Company. The lands of the Illinois Central Railroad Company are selling at from $6 to $12 per acre, and other land-grant companies in the West are receiving equal prices for similar properties.

FUTURE BUSINESS.

The most skeptical have never expressed a doubt that when the Union Pacific Railroad is finished the immense business that must flow over it, as the only railroad connecting the two grand divisions of the North American continent, will be one of the wonders of railway transportation, and as it will have no competitor it can always charge remunerative rates.

EARNINGS FROM WAY BUSINESS.

During the quarter ending July 31, an average of 325 miles of the Union Pacific Railroad was in operation. The Superintendent's Report shows the following result:

EARNINGS.

Passengers, Freight, Telegraph, Mails,	$723,755 54
Transportation of Contractors' Materials and Men	479,283 41
Total	$1,203,038 95

EXPENSES.

Fuel, Repairs, Offices, Conductors, Trains, &c.	$395,730 92
NET EARNINGS to balance	807,308 03
Total	$1,203,038 95

The net operating expenses on the commercial business for the quarter were $237,966 50. The account for the COMMERCIAL BUSINESS stands as follows:

Earnings for May, June and July.	$723,755 54
Expenses,	237,966 50
Net Profit	$485,789 04

The amount of Bonds the Company can issue on 325 miles, at $16,000 per mile, is $5,200,000. Interest in gold, three months, at 6 per cent., on this sum, is $78,000; add 40 per cent. premium, to correspond with currency earnings, is $109,200—showing that the net earnings for this quarter were *more than four times the interest* on the First Mortgage Bonds on this length of road.

FIRST MORTGAGE BONDS,

whose principal is so amply provided for, and whose interest is so thoroughly secured, must be classed among the *safest* investments. They pay

SIX PER CENT. IN GOLD,

and are offered for the present at NINETY CENTS ON THE DOLLAR, and accrued interest at six Per Cent. in Currency from July 1.

Many parties are taking advantage of the present high price of Government stocks to exchange for these Bonds, which are over FIFTEEN PER CENT. CHEAPER, and, at the current rate of premium on gold, pay

OVER NINE PER CENT. INTEREST.

Subscriptions will be received in GETTYSBURG, by GETTYSBURG NATIONAL BANK and FIRST NATIONAL BANK, and in New York at the Company's Office, No. 20 Nassau street, and by

CONTINENTAL NATIONAL BANK, No. 7 Nassau street,

Remittances should be made in drafts or other funds par in New York, and the bonds will be sent free of charge by return express.

FRIDAY AFTERNOON, NOV. 15, 1867.

NATIONAL AGRICULTURAL REPORT.

The October report of the agricultural department, just out, says of the wheat crop that while few localities have exhibited large yields per acre, and some have caused comparative disappointment by an average product less than was confidently expected at harvesting, the sum total in bushels will exceed that of any harvest hitherto gathered in this country.

It will surmount the figures of last year by forty or fifty millions, but will not reach the amount which should have been attained upon the rates of increase made between 1850 and 1860 by 20,000,000 bushels.

As an approximate upon present data 220,000,000 to 225,000,000 bushels may be received as the crop of the entire country for 1867.

In the Atlantic States the greatest deficiency last year was in Pennsylvania, and the increase there this year is 57 per cent. The Southern States show a material enlargement in the area of wheat, from an evident intention to become more nearly self-supporting and independent than formerly. This is particularly noticeable in Virginia, Georgia, Alabama, Tennessee and Arkansas.

The quality of the wheat crop is reported to be greatly superior to that of last year. It is almost universally sound and dry, but in many localities there may be found from one-third to one-half deficient in weight, lacking in plumpness or slightly shrivelled, and passing as No. 2, being less than 58 pounds to the bushel.

There is also a greater tendency to cleanliness and care in preparing the grain for the market. High prices and the marked discriminations of buyers are doing good service in this direction.

The aggregate oats estimate will exceed 280,000,000 of bushels, about 3 per cent above that of 1866.

The quality of the corn crop is uniformly good, leaving no doubt that the value of the entire crop, after deducting the deficiency in the Ohio valley and allowing for an increase in almost all the other States, will be greater, not only in cash, but in the intrinsic life-sustaining and pork-producing power than that of last year.

The sorghum interest has greatly declined, and frosts have injured the crop in many places.

The buckwheat crop will scarcely be equal to that of last year.

The potato crop is a poor one this year.

A decline in the tobacco product is indicated in the principal tobacco-growing sections.

Louisiana, the only State producing cane sugar to any extent, reports an increase of 20 per cent. over the small yield of last year.

Complete estimates of cotton will be made on the receipt of the November returns. The returns of October indicate a considerable increase in South Carolina, Georgia and Alabama, and about the same yield as last year in Mississippi, Arkansas and Tennessee, and a marked diminution in Texas and Louisiana. All estimates below 2,000,000 bales are decidedly fallacious, while the present indications favor on approximate to 2,500,000 bales.

There appears to be a small deficency of fattening cattle in Kentucky, Ohio, Indiana and Illinois, the center of eastern supplies. Further West and Northwest the supply is generally quite as good as last year.

HOW TO COOK A HAM.—We dine occasionally at the table of Mrs K., and until we tasted it there, we did not know what a ham was capable of. It being too nice to remain a family secret, we asked for the recipe for the benefit of our readers. Boil a ham for three hours, remove the skin, and trim it nicely, and then rub into the fat a pound of powdered sugar, or as much as it will take up. The ham is them placed in a dripping pan, in which is put a pint of sherry, or other good wine, and put into the oven, and baked very slowly for two hours. During the baking it is frequently basted with wine. Try this, and we are confident you will say that you have never before eaten ham in its greatest perfection.—*American Agriculturist.*

CORN MEAL PUDDING WITHOUT EGGS.—Take seven heaping table-spoonsful of meal, a salt-spoonful of salt, two table-spoonsful of butter, one tea-cupful of molasses, a table-spoonful of ginger, and mix with a quart of boiling milk. When thoroughly mixed, pour into a buttered pan, and just as you set in the oven stir in a cup of cold water, which will have the same effect as eggs. Bake one hour.

GINGERBREAD LOAF.—Two pounds of flour, two pounds of molasses, half a pound of coarse brown sugar, one ounce and a-half of ground ginger, one ounce of carraway seed, six ounces of butter, eight eggs, and a small table-spoonful of soda; melt the butter, molasses, and sugar together over the fire, and mix with the other ingredients. Bake three hours.

DYSPEPSIA BREAD.—The following recipe for making bread has proved highly salutary to persons afflicted with dyspepsia: Three quarts of unbolted wheat meal, one quart of soft water, warm but not hot, one gill of fresh yeast, one gill of molasses, or not, as may suit the taste, and one teaspoonful of saleratus.

A NICE TEA CAKE.—One cupful of sugar, one of sweet milk, one egg, one teaspoonful of soda dissolved in the milk, two teaspoonsful of cream tartar, put into one pint of flour sifted, a cupful of well-cleaned currants, and half a nutmeg or a spoonful of carraway seed.

CHEAP CAKE.—Take three tablespoonsful of melted lard, butter, or fried meat gravy, one teacupful of sugar, one of sour, or sweet milk, (some prefer the sour,) half a teaspoonful of saleratus; put flour enough in to make it as stiff as you can stir it.

BRINKERHOFF'S

Corn Sheller, Separator and Cleaner.

THE undersigned would inform the Agricultural public that he has purchased from the Patantee of this extraordinary machine, the Patent Right for the States of Pennsylvania and Maryland.

Brinkerhoff's Corn Sheller, Separator and Cleaner, is pronounced the best machine of the kind in this country. And in proof, it may be mentioned that the "Advisory Committee" appointed to select Implements for exhibition at the Universal Exposition in Paris, in 1867, have selected this Sheller as the best in America, and at the request of J. C. Derby, U. S. Agent, a *machine has been shipped to Paris for exhibition.*

The fact may also be stated that at the great trial of Agricultural Implements, at Auburn, N. Y., in July last, under the auspices of the New York State Agricultural Society, the Brinkerhoff Corn Sheller, Separator and Cleaner was reported by one of the most competent Committees as the best Corn Sheller out. They say, "We have carefully examined and thoroughly tested this machine, and have no hesitation in pronouncing it *the best Corn Sheller we ever saw.*" The report is signed by such men as John Stanton Gould, President N. Y. State Agricultural Society; B. P. Johnson, Secretary to same; Solon Robinson, Agricultural Editor N. Y. Tribune; S. Edwards Todd, Agricultural Editor N. Y. Times.

From among many complimentary newspaper notices, the following, from the New York *Observer,* is deemed sufficient:

"Among all the Hand Corn Shellers made in New York and Albany—and one single firm manufactures more than 10,000 annually—not one can enter the circle with the Sheller just invented by J. Brinkerhoff, Auburn, New York. It shells, separates and cleans, rapidly and easily, at one operation, as fast as the ears can be put into the hopper."

The undersigned is now prepared to dispose of COUNTY RIGHTS. He will have SHELLERS ready for sale in the course of a month's time.

BAUGH'S RAW BONE PHOSPHATE.

WHICH contains by analysis of Prof. A. Snowden Piggott,

3.75 per cent. of Ammonia and
52.57 " " Bone Phosphate of Lime,

besides over 14 per cent. of Soluble Salts.

This article stands prominent on the list of valuable Fertilizers, 7 years of trial having gained for it an enviable reputation.

Being made from Raw Bones, which contain *all their original organic matter, it retains the Durable Properties of bone, and while it produces large crops, it renovates and permanently improves the soil.*

A TRIAL OF IT IS ALL THAT IS NEEDED to convince any one of its great merits.

The public are cautioned against several spurious imitations of this article called "Raw Bone," "Raw Bone Phosphate," &c. Many Farmers have been greatly deceived by purchasing them. Be sure to specify "BAUGH'S."

It is packed in Bags and Barrels, and is prepared in a fine powder suitable for drilling.

ESTEY'S CELEBRATED

COTTAGE, HARMONIC AND BOUDOIR

ORGANS AND MELODEONS.

These Instruments stand unrivalled by anything found in this country or in Europe, as is admitted by all impartial judges. The most eminent Pipe Organ builders and Performers, the last to discover excellence in reed Tone, pronounced them vastly superior to all others for exceedingly quick articulation and round Tone; the essential feature in instruments of this class. We invite the severest scrutiny and criticism of all.

PATENT VOX HUMANA TREMOLO.

This late and most wonderful invention (so acknowledged by all leading artists) will be found only in the Estey Instruments. In attempting to describe the effect of this stop, we are at loss for language. Its beauties cannot be written, but must be heard to be appreciated. By this stop an ordinary performer can produce an effect which requires a life time of practice for an artist upon a violin. It entirely changes the reed Tone, giving the sympathetic sweetness of the human voice, making it so melodious and pure that it never fails to enchant the listener.

THE HARMONIC ORGAN

for Churches, Public Halls and Parlors has a powerful sub-Bass with independent reeds, Harmonic attachment and Vox Humana Tremolo, and is believed to be the most powerful reed organ made, being nearly equal to a Pipe Organ of three times the cost.

All instruments warranted for five years.

BRASS BANDS supplied with instruments and music at reasonable terms.

A liberal discount allowed for Churches and Sabbath Schools.

Instructions given both in Vocal and Instrumental Music, at our rooms, and at pupils' homes, either to individuals or classes, on reasonable terms.

JOHN S. REESE & CO.,
Wholesale Agents for Company.

THE very extended use of this Guano throughout the country renders it unnecessary to say more this season, than its *composition and quality* are precisely the same as that heretofore sold by us for the Company.

We have sold this cargo from the beginning under a regular system of rigid inspection, at an *expense to the Company of many hundreds of* dollars annually. This is done for the *protection alike of the consumer and the Company,* as it is manifest to all who understand the trade in fertilizers, that it cannot be safely conducted on any other principle. The importance and extent of the trade demands this protection.

We are prepared to exhibit Dr. A. Snowden Piggot's *certificate of inspection* for every cargo sold. Consumers must observe the name of JOHN S. REESE & Co. branded on the bags, none other genuine.

FOUTZ'S

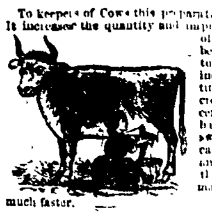
CELEBRATED

Horse and Cattle Powders.

This preparation, long and favorably known, will thoroughly reinvigorate broken-down and low spirited horses, by strengthening and cleansing the stomach and intestines.

It is a sure preventive of all diseases incident to this animal, such as LUNG FEVER, GLANDERS, YELLOW WATER, HEAVES, COUGHS, DISTEMPER, FEVERS, FOUNDER, LOSS OF APPETITE AND VITAL ENERGY, &c. Its use improves the wind, increases the appetite—gives a smooth and glossy skin—and transforms the miserable skeleton into a fine looking and spirited horse.

To keepers of Cows this preparation is invaluable. It increases the quantity and improves the quality of the milk. It has been proven by actual experiment to increase the quantity of milk and cream twenty per cent and make the butter firm and sweet. In fattening cattle it gives them an appetite, loosens their hide, and makes them thrive much faster.



In all diseases of Swine, such as Coughs, Ulcers in the Lungs, Liver, &c., this article acts as a specific. By putting from one half a paper to a paper in a barrel of swill the above diseases will be eradicated or entirely prevented. If given in time, a certain preventive and cure for the Hog Cholera.

LYON'S PERIODICAL DROPS!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES!

I have sold these Drops in tax own practice, over ten years, and do not hesitate to say, that nothing has yet been developed by medical research, that acts so powerfully, positively and harmlessly, in cases of irregularity, as does this medicine. In all recent cases it never fails, while thousands who have been long sufferers, are indebted to it for the boon of health to-day.

Although so powerful and positive, they are *perfectly harmless, and may be used at all times,* except when specially forbidden in the directions.

They have been extensively employed by eminent physicians of France and England, as well as in our own practice, and not an instance have I yet to hear of the first instance of failure. I could give you testimonials of their efficacy from all over the North and Western States, were they necessary. Over 100,000 bottles have been sold in the past year, and I hope and trust as many sufferers have been benefitted. I am well aware that a remedy so potent to remove all obstructions, *may be used for a bad purpose,* but trust that where one bottle is thus used, ten may lend to the benefit of really necessary sufferers.

To all who suffer from any irregularity; painful, difficult, excessive, offensive or obstructed Menstruation, Leucorrhoea, or the train of diseases that follow, I would say, try LYON'S FRENCH PERIODICAL DROPS. Being a fluid preparation, their action is more direct and positive than any pills or powders. Explicit directions, bearing my fac-simile, accompany each bottle.

They may be obtained of nearly every druggist in the country, or by sending the price to C. G. CLARK & CO., New Haven, Conn., General Agents for the United States and Canada.
